

ECA
262, rue des frères Lumière
ZI de Toulon-Est - BP 242
83130 LA GARDE - FRANCE
Tél. : + 33 (0) 4 94 08 90 00
Fax : + 33 (0) 4 94 08 90 70
E-mail : scourzic.d@ecagroup.com
Web : www.ecagroup.com

Contact : • *Daniel Scourzic, Director of Sales, Robotics*

Turnover: € 83 million (2007)

Number of employees: 600

Category: equipment manufacturer / subcontractor

Activity:

ECA provides innovative solutions for autonomous and remote controlled inspection & intervention: automated systems, UUVs (unmanned underwater vehicles) and in particular AUVs (autonomous underwater vehicles) such as the Alistar 3000, inspection AUV, USVs (unmanned surface vehicles), ROVs (remotely operated vehicles), ship hull inspection ROV, cameras and simulators.

On a group level, ECA provides additional expertise in engineering and equipment:

- ECA EN: control & command, monitoring, propulsion and power electronics,
- ECA Faros: simulators for aircrafts, cars, trucks and subsea vehicles,
- ECA Hytec: ROVs, subsea and explosion proof cameras, inspection systems for pipes, sewers and boreholes,
- ECA Sindel: marine training & full mission shiphandling simulators.

Activité :

ECA est un fournisseur de solutions innovantes pour les inspections et les interventions autonomes et téléopérées : systèmes automatisés, UUVs (unmanned underwater vehicles) et en particulier AUVs (autonomous underwater vehicles), tels que l'Alistar 3000, AUV d'inspection, USVs (unmanned surface vehicles), ROVs (remotely operated vehicles), ROV d'inspection de coques de navires, caméras et simulateurs.

Les entités du groupe ECA proposent une expertise complémentaire en engineering et en équipements :

- ECA EN : contrôle commande, monitoring, propulsion et électronique de puissance,
- ECA Faros : simulateurs pour les avions, voitures, camions et véhicules sous-marins,
- ECA Hytec : ROVs, caméras sous-marines et antidéflagrantes, systèmes d'inspection de pipelines, de réseaux d'assainissement et de puits de forage,
- ECA Sindel : simulateurs « marine » d'entraînement à la manœuvre.

ECM - Engineering Construction Management

17, lieu-dit la Raphelle
13700 MARGNANE - FRANCE

Tél. : + 33 (0) 4 42 31 01 68

Fax : + 33 (0) 4 42 75 53 24

E-mail : entreprise@ecm-export.com

Web : www.ecm-export.com

Contact : • Daniel Cantini, Chairman

Turnover: € 20 million
Number of employees: 180
Category: subcontractor

Activity:

ECM (Engineering Construction Management) was founded in 2000 to offer high quality technical assistance mainly to the oil industry.

ECM was dedicated to engineering and technical assistance ranging from construction, project management, studies, mechanics, HSE, electricity, instrumentation, piping, etc.

ECM has developed into a holding company with subsidiaries specialized in technical assistance in Marignane, Paris, Algeria, Mauritania and Nigeria, and with subsidiaries specialized in engineering in Gabon, Congo and Cameroon.

Our teams are selected by experienced staff according to rigorous criteria for technical as well as human qualities. The aim is to ensure client satisfaction, as well as employee satisfaction.

Activité :

ECM (Engineering Construction Management) est une société d'assistance technique et d'ingénierie internationale au service de la construction et du management de projets industriels.

Elle a pour mission d'offrir à ses clients une assistance technique complète par le biais de personnel qualifié et des solutions en ingénierie clés en main.

La force d'ECM : la richesse de son réseau international avec des implantations en Algérie, au Cameroun, Congo, Gabon et Nigeria et des partenaires en Inde et en Afrique du Sud.

Les domaines de compétences d'ECM : management de projet, ingénierie, forage, supervision de construction, inspection, maintenance, HSE, precommissioning, commissioning, arrêts, démarrages d'unités onshore, offshore, etc.

Les équipes d'intervention sont sélectionnées suivant des procédures rigoureuses par un encadrement maîtrisant depuis de longues années les métiers du pétrole.

**EDF Group
Gas Division**

Tour EDF
20, place de la Défense - La Défense 8
92050 PARIS LA DÉFENSE Cedex - FRANCE
Tél. : + 33 (0) 1 56 65 11 11
Fax : +33 (0) 1 56 65 22 26
Web : www.edf.com

Category: Operator

Activity:

The **EDF Group** is an integrated energy supplier operating in a wide range of electricity and gas related activities: power generation, transmission and distribution; gas production, transportation, storage; energy sale and trading. We are the main operator in the French electricity market and hold strong positions in three main European markets (Germany, United Kingdom, Italy).

In the electricity sector, we have the largest generation fleet in the world with over 126,000 MW and our European supply portfolio has more than 38 million customers. With 58 nuclear power plants in operation, with a total of over 63,000 MW, we are the world leading nuclear generator. We are also the leading electricity network operator in Europe, with activities balanced between regulated and those open to competition.

In the gas sector, we have handled approximately 26 bcm in Europe (trading not included). We are preparing for an increase in our own gas needs to around 45 bcm/y, to deliver combined gas/electricity offer to our customers and to supply our own gas-fired power plants. We are building a portfolio to supply and optimize our gas sourcing needs in long-term gas procurement (purchase and throughput contracts and equity gas) and investments in logistic assets (LNG, pipelines, storages).

Our new projects include our LNG Terminal in Dunkirk, the gas storage at Etzel in Germany to develop underground salt caverns. We have also signed a medium-term LNG supply agreement with Rasgas for deliveries in Zeebrugge.

Our subsidiary Edison co-sponsors the Rovigo offshore LNG Terminal and has secured LNG sourcing from Qatar. It is also involved in the development of 2 leading pipeline projects: IGI between Greece and Italy and Galsi between Algeria and Italy.

EIFFEL
CONSTRUCTION METALLIQUE

48/50, rue de Seine
92707 COLOMBES Cedex - FRANCE
Tél. : + 33 (0) 1 47 60 47 00
Fax : + 33 (0) 1 47 60 47 05
Web : www.eiffel.fr

Contact : • Arnaud de Villepin, Offshore Energy Director

Turnover: € 728 million
Number of employees: 4 100
Category: contractor

Activity:

EIFFEL, part of EIFFAGE group (2008 turnover € 13 226 million) is the French leader in steel construction with a 2008 turnover of € 728 million and around 4100 employees.

The EIFFEL offshore division acts as an EPCI contractor for oil and gas construction such as production platforms, accommodation platforms or barges, drilling or technical or compression modules, work-over rigs...

EIFFEL has also developed modular concept for living quarter platforms and work-over rigs.

EIFFEL also provides LPG/LNG mounted storage tanks and mechanical products such as gantry crane, handling equipment.

The offshore division operates from:

- His own private yard located on the Mediterranean seaside close to Marseille,
- His subsidiary located in Port-Harcourt, Nigeria,
- His subsidiary located in London, UK.

The company has also got many partnerships with other yards all around the world.

EIFFEL major concerns are to provide customers with highest HSE results, maximum quality and delivery on time and on budget.

EMC - EMERGENCY MEDICAL CARE

Immeuble le Carat 2-6, rue André Gide

92328 CHÂTILLON Cedex - FRANCE

Tél. : + 33 (0) 1 49 65 18 30

Fax : + 33 (0) 1 49 65 18 48

E-mail : pascal.edou@axa-assistance.com

Web : www.emc-emergencymedicalcare.com

Contact : • Pascal Edou, Director of Marketing & Commercial Manager

Turnover: € 7.3 million
Number of employees: 130
Category: subcontractor

Activity:

EMERGENCY MEDICAL CARE (EMC) is the subsidiary of the AXA Assistance Group specialising in medical security for the oil & gas sector. For the past 10 years, EMC has been providing a full range of medical services tailored to its clients' needs and up to the latest international standards.

Today, EMC is present in over 50 sites worldwide as well as in France and employs over 150 physicians, nurses, and laboratory technicians.

What we do

- Design and implement the medical support and health & safety requirements that best suits the requirements of our clients operations in remote and hazardous locations.
- Access to our own clinics, set up and operation of medical facilities, full site medical support, medical staffing, trainings, audit, equipment and drugs, etc.

Our services

Owned and operated medical centres (Algeria, Chad, Nigeria...), on-site health structures and services for major projects, on-site medical support (modular clinic, staff & equipment), medical staffing, audit services (health structures, compound general hygiene...), health risk assessment, medical emergency response plan, medical consulting, training programmes.

Our staff

Composed of emergency specialists experienced in living and operating in difficult and remote areas. They have extensive experience in pre hospital patient intake and are regularly trained in paramedics.

Our clients

ABB, Agip, Air France, Alcatel-Lucent, Areva, Bouygues, BP, Chevron, Cepsa, ConocoPhillips, Exxon, FCP, Halliburton, GDF Suez, Petro-Canada, Repsol, Saipem, Schlumberger, Shell, Sodexho, Technip, Total, Transocean, Vinci, Weatherford, etc.

Emc3

Centre d'affaires Grand Var – Bât. B
83130 LA GARDE - FRANCE
Tél. : + 33 (0) 4 94 14 49 20
Fax : + 33 (0) 4 94 14 49 29
E-mail : contact@emc3-fr.com
Web : www.emc3-fr.com

Contact : • Christian Vigne, Managing Director

Turnover: € 1.7 million

Number of employees: 12

Category: consultancy / engineering / subcontractor

Activity:

Emc3 is specialised in subsea production systems for offshore oil and gas production and intervention. Key areas are control systems and umbilicals. Its main activities in this area are:

- Expertise on projects and conceptual studies,
- Technical assistance from engineering to commissioning,
- Detailed engineering and construction of components and sub-assemblies.

Emc3 has a long experience in deepwater fields and has been participating in the development of Girassol, Dalia, Kizomba, Akpo, Moho Bilondo, Usan, Rosa, Pazflor, CLOV.

Emc3 provides also qualification studies, design, engineering and manufacturing of subsea instrumentation systems (non intrusive pressure sensors, riser integrity monitoring system, electrical heating of production jumpers ...). Most of these systems are patented.

Activité :

Emc3 est une société spécialisée dans les systèmes sous-marins de production d'hydrocarbures. Ses points forts sont les systèmes de contrôle et les ombilicaux. Ses activités principales sont :

- Expertise sur projets et études conceptuelles,
- Assistance technique sur toute la durée d'un projet,
- Conception et construction de composants et sous-ensembles.

Emc3 a une longue expérience des champs sous-marins profonds et a participé aux développements de Girassol, Dalia, Kizomba, Akpo, Moho Bilondo, Usan, Rosa, Pazflor, CLOV.

Emc3 propose aussi des études de qualification, ainsi que la conception et réalisation de composants et systèmes d'instrumentation sous-marine (capteurs de pression non intrusifs, système d'acquisition de données pour mesure d'intégrité de risers, chauffage électrique de jumpers de production, ...). La plupart de ces systèmes font l'objet de brevets.

ENERTAG

Immeuble Le Volta
17/19, rue Jeanne Braconnier
92360 MEUDON - FRANCE
Tél. : + 33 (0) 1 41 36 07 30
Fax : + 33 (0) 1 40 94 10 18
E-mail : a.humbert@enertag.com
Web: www.enertag.com

Contact : • Arnaud Humbert, Business Development Manager

Category: subcontractor

Activity:

ENERTAG is a high technology service company providing solutions for subsea oil & gas asset management.

ENERTAG's Technology allows subsea identification and traceability of strategic industrial assets operating in rough environments.

ENERTAG's Identification & Tracking Solution (ITS) can be used with any type of offshore equipment and offers:

- Increased *safety*,
- Automated *inventory*,
- Auditable *inspection* records.

First patented RFID technology able to read & write to passive tags underwater.

Activité :

ENERTAG est une compagnie de services de haute technologie fournissant des solutions pour le management d'actifs sous-marins de pétrole et de gaz.

La technologie d'ENERTAG permet l'identification et la traçabilité d'actifs stratégiques industriels agissant dans des environnements rudes.

La solution d'identification et de traçabilité d'ENERTAG (ITS) peut être utilisée avec n'importe quel type d'équipement offshore et offre :

- Une *sécurité* accrue,
- Un *inventaire* automatisé,
- Des enregistrements d'*inspections* vérifiables.

ENERTAG ITS est la première technologie RFID brevetée, capable de lire et écrire sur des tags passifs sous-marins.

ENSIVAL-MORET INTERNATIONAL

Chemin des Ponts et Chaussées
02100 SAINT-QUENTIN - FRANCE

Web : www.ensival-moret.com

Contact : • Bernard Knittel, Commercial Direction

Turnover: € 120 million
Number of employees: 800
Category: manufacturer

Activity:

ENSIVAL-MORET is one of the major European pumps manufacturers.

Seven factories (three in France, two in Belgium, one in China and one in Brazil) are producing a complete range of horizontal and vertical one stage or multistage centrifugal pumps, axial flow pumps, vacuum pumps for oil, petrochemicals, fertilizers, sugar, paper, food and general industry plants.

From standard pumps (ISO and API) to special pumps in cast steel, stainless steel and special materials

Eleven repairs centers in France & Belgium and six abroad.

Quality certification: ISO 9001

EUPEC FRANCE

21, route du Guindal
59820 GRAVELINES - FRANCE

Web: www.eupec-pipecoatings.com

Contacts : • Laurent Grodziski, Julien Blondeel, Philippe Grenier

Number of employees: 250

Category: manufacturer / vendor

Activity:

For more than 40 years, **EUPEC**, under KORINDO group (head office in Jakarta), has been providing reliable solutions for the "end-to-end" protection of steel pipelines on both onshore and offshore pipeline industries.

EUPEC is one of the world-wide leading companies in the application of multi-layer anti-corrosion coating systems based on polyolefins.

This international reputation also applies to concrete weight coating, pipe-in-pipe fabrication, remote processing and monitoring of pipelines (ATIS system), services related to global project management and pipeline field services, technical assistance, logistics, personnel training, etc.

EUPEC is certified ISO 9001, 14001 and OHSAS 18001.

Liaison offices & subsidiaries worldwide: France, Spain, Germany, Finland, Singapore and Indonesia.

Facilities: France, Germany, Finland and Indonesia.

Activité :

Depuis plus de 40 ans, **EUPEC**, société du groupe KORINDO (dont le siège social se situe à Jakarta) apporte des solutions fiables de protection globale des pipelines acier onshore et offshore qui l'ont portée au rang des meilleurs spécialistes mondiaux de l'application de revêtements anticorrosion multicouches.

Cette expérience internationale se confirme aussi pour le lestage béton, l'assemblage de pipe-in-pipe, la télésurveillance et télégestion des conduites (système ATIS), les services liés au management global de projets et à la pose de pipelines, l'assistance technique, la logistique, la formation de personnel, etc.

EUPEC est certifiée ISO 9001, 14001 et OHSAS 18001.

Bureaux de liaison & filiales : France, Espagne, Allemagne, Finlande, Singapour et Indonésie.

Sites de production : France, Allemagne, Finlande et Indonésie.

Web : www.ecprojet.fr

Contact : • *Lionel Apostolo, Operations Manager*

Turnover: € 14 million

Number of employees: 132

Category: consultancy / engineering / subcontractor

Activity:

Founded in 1988, **EURO CONTRÔLE PROJET** is an independent company specialised in project management services for industrial clients, owners/operators and main contractors.

At all project phases from feasibility studies to start-up, **EURO CONTRÔLE PROJET** offers a full range of services covering:

Consultancy for Project Development and Management

- Project management organisation and methodologies
- Investment, risk evaluation
- Project control implementation
- Contracting and purchasing strategy

Assistance and Expertise services

- Cost estimating
- Cost control
- Planning/scheduling and progress measurement
- Contract/subcontract and procurement management
- Risk management
- Document/information control
- Quality management

EXSTO

55, avenue de la Déportation
26106 ROMANS Cedex - FRANCE
Tél. : + 33 (0) 4 75 72 72 72
Fax : + 33 (0) 4 75 72 26 11
E-mail : jmpenelon@exsto.com
Web : www.exsto.com

Contact : • *Jean-Marc Penelon*

Turnover: € 25 million
Number of employees: 189
Category: manufacturer

Activity:

EXSTO is a French global industrial company specialized in design and production of engineered parts from polyurethanes, thermoplastics and composites technologies.

The company is involved in several industries including offshore applications, with a leading position in polyurethane.

EXSTO is also the mother company of DUNLAW Ltd, based in Aberdeen, and specialised in marine elastomer engineering. The synergy between the two companies creates the most beneficial partnership for the offshore market. That represents for EXSTO the opportunity to enter on a strategic market, and offers to DUNLAW the possibility to expend its capability in bend restrictors, bend stiffeners, VIV's strakes, SCIP for impact protection, protective sleeves, seals, markers, etc.

Our objective is to offer a broad range of elastomer solutions for SURF use, and then, rapidly move the company to a higher contract level in the global offshore oil and gas market.

FAURE HERMAN

Route de Bonnétable
72406 LA FERTÉ-BERNARD - FRANCE
Tél : + 33 (0) 2 43 60 28 60
Fax : + 33 (0) 2 43 60 28 70
E-mail : dbarbier@idexcorp.com
Web : www.faureherman.com

Contact : • *Denys Barbier*

Turnover: € 12.7 million
Number of employees: 100
Category: equipment manufacturer

Activity:

FAURE HERMAN designs and manufactures high accuracy flow-meters for liquid measurement, used for applications in the petroleum, petrochemical industry as well as for the aircraft industry.

The main industrial applications are offshore and pipeline custody transfer flow measurement, loading and off-loading of tanker, truck, wagon as well as process flow measurement for applications such as leak detection on pipeline and blending of hydrocarbons.

Products: High accuracy turbine and ultrasonic flow-meters.

Services: High quality services such as calibration of flow-meters over a wide range of flow-rates and viscosities / commissioning / maintenance / on-site assistance / spare parts / operator and technician training.

Activité :

FAURE HERMAN conçoit, réalise et commercialise des compteurs de liquides de haute précision, destinés à des applications dans l'industrie pétrolière, pétrochimique et aéronautique.

Les principales applications industrielles sont les mesures de débit transactionnelles offshore et sur pipelines, les postes de chargement et déchargement de bateaux, wagons, camions ainsi que des mesures de débit non transactionnelles pour des applications telles que la détection de fuites sur pipeline et le mélange de produits pétroliers.

Produits : Débitmètres de précision à turbine et ultrasons.

Services : Des moyens uniques d'étalonnage couvrant de grandes plages de débit, viscosité et taille de compteur / assistance sur site / mise en service / maintenance / pièces détachées, / formation des utilisateurs et techniciens de maintenance.

FINDER POMPES - PMH

4, rue Fernand Pelloutier
69637 VENISSIEUX Cedex - FRANCE

Fax : + 33 (0) 4 72 21 24 10
E-mail : info@finderpompes.fr
Web : www.finderpompes.fr

Contacts :

- *Gérard Dufour, General Manager*
- *Nathalie Rose / Benoit Gillet, Area Sales Managers*

Turnover: € 6 million

Number of employees: 30

Category: integrator / manufacturer / vendor

Activity:

FINDER POMPES - PMH designs and produces a large range of volumetric and centrifugal pumps.

The products dedicated to the oil & gas, petrochemicals industries are:

- Reciprocating plunger pumps complying with API 674 standards with an installed power up to 400 kW - 100 m³/h max - 1400 bar,
- Centrifugal pumps conforming to API 610 edition,
- Liquid ring vacuum pumps and packages built according API 681 standards.

FINDER POMPES delivers also complete custom engineered packages including pumps, drivers, tanks and auxiliaries.

FINDER POMPES is ISO 9001: 2000 certified with a quality management system developed in compliance with API Q1/ISO TS 29001 requirements.

FLOW CONTROL TECHNOLOGIES

Tyco Group

Head office : rue Sabanel

Category: subcontractor / vendor

Activity:

With 2006 sales of over \$3 billion, **FLOWSERVE** has about 14,000 employees and operates in 56 countries.

FLOWSERVE FLOW CONTROL is the foremost specialist valve and controls manufacturing organisation in the world. Strong brand recognition results primarily from the extraordinary success of FLOWSERVE valve and automation products with thousands of application in all major industries. Quality, safety, availability and in-depth technical support are combined in a world class product offering.

Heritage names of distinction: *VALTEK, SEREG, SCHMIDT ARMATUREN and KÄMMER.*

General applications: low temperature & cryogenic / high pressure / low flow & micro flow / lined valves / severe services / analogic to digital positioners.

Activité :

Avec un chiffre d'affaire supérieur à 3 milliards de dollars en 2006 et près de 14 000 employés dans le monde, FLOWSERVE est présent dans 56 pays.

La division **FLOWSERVE FLOW CONTROL** bénéficie de plus de 150 années d'expérience et de savoir-faire et propose une gamme entière de services complétant son large catalogue de produits qui comprend des vannes à boule, des vannes à clapet, des vannes d'arrêt, des vannes à boisseau sphérique, des vannes de fermeture, des vannes de contrôle rotatives, des actionneurs, des positionneurs, des vannes vapeur et des purgeurs à flotteur pour liquides et condensats.

Des noms connus : *VALTEK, SEREG, SCHMIDT ou KÄMMER.*

Applications générales : basses températures et cryogénie / hautes performances / hautes pressions / vannes revêtues / petits et micro débits / conditions sévères / positionneurs analogiques et numériques.

Turnover: > € 10 million
Category: manufacturer / vendor

Activity:

The specialist of the low and high pressure fluids control

FCE represents and markets FMC Technologies Inc - Fluid Control Division - products (*WECO®*, *CHIKSAN®*, *INVALCO*, etc.) in France and French speaking territories of North and West Africa.

Recently FCE was appointed the FMC loading systems (marine, truck, railcar, loading arms and pigging systems) representative for mainland France.

Additionally FCE also represents various OEMs on regional basis encompassing oilfield products such as valves, chokes and high pressure hoses for production, drilling and well servicing (including well test).

FCE also develops and produces, in its own right as independent OEM, its own integrated products such as fixed/mobile pumping units, well test packages, manifolding (well test, drilling, production) and a full range of temporary hook up pipework as used in well test, UBD and well servicing applications. With its own in house engineering/extensive product line, FCE is able to provide solutions to a wide range of client driven specifications for use in oilfield operations.

FMC Technologies SA

Contacts : • Jacques Seguin / Bruno Cagnol, Commercial Direction

Turnover: € 200 million
Number of employees: 1 400
Category: subcontractor

Activity:

FOSELEV, created in 1970, is an independent group specialized in industrial services composed of 29 commercial companies and 60 agencies based all over France and overseas.

Quality certification: ISO 9001: 2000

Global Services:

- Industrial maintenance (global contracts in mechanics and ironworks)
- Industrial piping: maintenance, revamping and construction
- Crane hire – erection – hoisting – transports (210 mobile cranes up to 600 tons)
- Industrial cleaning and environment (high pressure pumps up to 35000 PSI)
- Modular buildings (6000 units)
- Shipyards for ships up to 75 meters (dry-dock, 300 m of quays)
- Vessels services: dynamic position vessel of 50 meters (offshore works) and tugs (towage and support assistance)

Activité :

Le **GROUPE FOSELEV** créé en 1970 est un groupe indépendant spécialisé dans les services à l'industrie et composé de 29 sociétés commerciales et 60 agences implantées en France et outre-mer.

Toutes ses activités sont certifiées ISO 9001 2000.

Son offre de services est la suivante :

- Maintenance industrielle (contrats globaux en mécanique et métallurgie)
- Tuyauterie industrielle (maintenance, revamping et travaux neufs)
- Levage manutention transports : 210 grues mobiles jusqu'à 600 tonnes
- Nettoyage industriel hydrodynamique très haute pression et chimique
- Arrêts d'unités en entreprise générale
- Location et vente de constructions modulaires : 6000 bungalows
- Chantier naval pour navires jusqu'à 75 m (300 m de quai et dry-dock)
- Services maritimes : navire à positionnement dynamique de 50 m pour travaux offshore et remorqueurs (remorquage et assistance)

THERMODYN

480, allée Gustave Eiffel - BP 119
71203 LE CREUSOT Cedex - FRANCE
Tél. : + 33 (0) 3 85 80 66 66
Fax : + 33 (0) 3 85 80 68 11
E-mail : thermodyn@ge.com
Web : www.ge.com/oilandgas

Contact : • Sylvie Chaudot, Marketing Communication

Turnover: € 210 million
Number of employees: 550
Category: manufacturer

Activity:

THERMODYN designs, manufactures and services centrifugal compressors and steam turbines for the oil and gas production, gas transmission, for onshore and offshore application, petroleum refining, petrochemicals and energy recovery industries, as well as for naval applications.

THERMODYN, the French subsidiary of GE Oil & Gas, is based in Le Creusot, Burgundy, and have its commercial offices in Paris La Défense.

THERMODYN has an extensive experience in the use of dry gas seals and magnetic bearings.

THERMODYN has recently developed and commercialized an integrated high speed electric motor driven compressor, the ICL, a low maintenance environmentally friendly machine.

Quality certification: ISO 9001: 2000 – AQAP 2110

Activité :

THERMODYN conçoit, fabrique et entretient des compresseurs centrifuges et des turbines à vapeur pour la production de pétrole et de gaz, le transport de gaz, pour des applications onshore ou offshore, le raffinage, la pétrochimie et la récupération d'énergie ainsi que pour des applications navales.

THERMODYN, filiale française de GE Oil & Gas, est basée au Creusot en Bourgogne et ses bureaux commerciaux sont à Paris La Défense.

THERMODYN possède une très grande expérience dans l'utilisation des garnitures sèches et des paliers magnétiques.

THERMODYN a récemment développé et commercialisé un moto compresseur intégré à grande vitesse, l'ICL, un compresseur qui respecte l'environnement et nécessite peu de maintenance.

Certification Qualité : ISO 9001 : 2000 – AQAP 2110

Web : www.geoservices.com

Contact : • Keith Ross, Communication Manager

Turnover: € 303 million (2007)
Number of employees: 5 000
Category: contractor / engineering

Activity:

GEOSERVICES provides a range of oil field services that help to evaluate hydrocarbon reservoirs and optimize field exploration, development and production.

It serves oil and gas companies worldwide through a network of bases in over fifty countries, covering all the main areas where oil or gas is to be found.

Its services include:

- Mud logging,
- Well intervention (slickline),
- Field surveillance.

Activité :

GEOSERVICES fournit une gamme de services pétroliers qui aide à l'évaluation de réservoirs d'hydrocarbures, à l'optimisation de l'exploration ainsi qu'au développement et à la production des champs.

À travers son réseau de bases installées dans plus de cinquante pays, la société offre un ensemble de prestations qui couvre des secteurs clés relatifs à l'exploitation des hydrocarbures.

Les services proposés correspondent à trois activités principales :

- Mud logging,
- Well intervention (slickline),
- Field surveillance.

GILEP

**Groupement interprofessionnel
de logistique et d'équipements pétroliers**

27, boulevard de Stalingrad
92240 MALAKOFF - FRANCE

Tél. : + 33 (0) 1 55 58 80 30

Fax : + 33 (0) 1 55 58 80 32

E-mail : contact@gilep.com

Web : www.gilep.fr

Contact : • *Bruno Lambret, General Secretary*

Category: association & similar / manufacturer / procurement services

Activity:

The French Military POL logistics

GILEP member companies are the cluster of usual providers for petroleum handling equipment and fuel distribution devices to the French Military. They also supply technical shelters, hitech hydraulics and lubricants for military aircraft, or environment protection devices such as mobile water treatment plants.

Between them, GILEP companies can supply a whole fuel farm plus the living quarters, one member acting as integrator and logistician for delivery on site.

GILEP members are well known in NATO and PfP nations, and more.

Activité :

La logistique pétrolière des armées en opérations

Le GILEP est le groupement des principaux fournisseurs de matériels et de produits pétroliers des forces armées françaises. Les sociétés membres conçoivent et fournissent une gamme complète de matériels et services associés qui constituent la chaîne de la logistique pétrolière des armées et des forces projetées.

Les armées sont ainsi dotées des matériels et produits les plus performants, ce qui leur assure l'efficacité indispensable lors d'opérations extérieures, même en conditions extrêmes.

La renommée des sociétés du GILEP s'étend au-delà des forces françaises, et les nations de l'OTAN en particulier connaissent bien le GILEP.

GRUPE GENOYER

9/11, rue de Lisbonne
ZI - BP 600 61
13742 VITROLLES - FRANCE
